CRIMECONNECT IQ
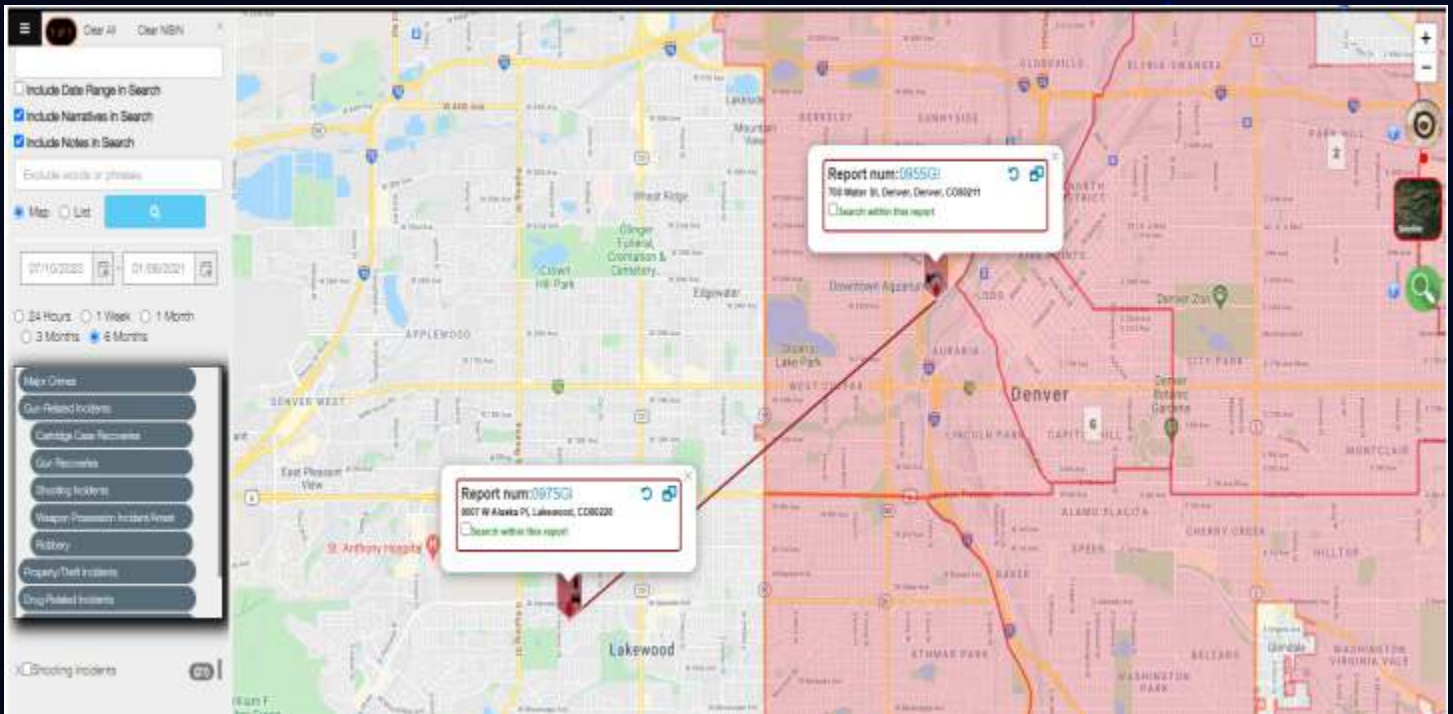

QUICKLY UNCOVER ASSOCIATIONS BETWEEN CRIMES. INTEGRATE NUMEROUS DATA SOURCES INTO A SINGLE SEARCHABLE PLATFORM.

•Connect with surrounding agencies' RMS data to share actionable intelligence across jurisdictional lines via an encrypted network to detect-connections between crimes

•Conduct analysis with progressive search tools to help identify potential associates and prior incidents to assist in the investigation

•Utilize search results to immediately uncover potential crime patterns

•Visualize results with interactive mapping features

•Secure all data within the agency's firewall
